

This is First-ever Global Alumni Conclave, an online meet-up **exclusively for Symbians** across the globe on Saturday, 28th August 2021 between 7:30 PM - 8:30 PM (IST).

In this informal tête-à-tête, titled '**The Power of Ideas**', Dr. Vidya Yeravdekar, Principal Director, Symbiosis, and Pro Chancellor, SIU, will share thought-provoking insights on how disruptive ideas and innovations are the order of the day as working paradigms have been fast-changing.

It's a great opportunity for you to come forward and share your innovative thoughts with everyone as well to make the interaction more engaging and enriching.

This virtual conclave will serve as a platform for us to share revolutionary ideas, brainstorm, and ignite the spark of innovation that will set us on the road to success.

SCAE's previous virtual conclaves hosted for India, Singapore, and the Gulf regions have won immense appreciation from the Symbiosis alumni community. The conclaves are visualised to be a highly effective platform for up-and-coming innovators to network, share their ideas and opinions, learn and accelerate their growth journey while solving the real-world challenges our communities face today.

Dr. Vidya is an engaging speaker, so we are sure you will enjoy this evening!

Please spread the word within your network and encourage fellow alumni to join the Symbiosis Global Alumni Conclave!

Don't forget to register straightaway by clicking the link below.
