

**Table 2.2: Five-Year Summary of Peer Reviewed Journals and Number of Publications in Each Department (2012-July 2017)**

Based on the data in Table 2-1, provide a five-year summary of peer reviewed journals (by name) and the number or publications appearing each. The number of publications should reflect an unduplicated count for coauthored publications.

Please organize by organizational structure of the school's faculty (e.g., departments, research groups) in the same manner as Table 2-1. Editorial board reviewed and peer-reviewed journals should be included. Please split fractionally for co-authorship among faculty employed by the school such that each publication is counted only once. Peer Review Teams may request this information by discipline, department, or major.
